

Quantum Information with Solid-State Devices

VO 141.246

SS2012

Dr. Johannes Majer

Lecture 5

Josephson junction

$$I = I_0 \sin(\delta)$$

$$V = \frac{\phi_0}{2\pi} \dot{\delta} = \frac{\hbar}{2e} \dot{\delta}$$

tilted washboard potential

Literature

Introduction to Solid State Physics,
C. Kittel, Wiley John + Sons,
ISBN: 978-0471415268

Introduction to Superconductivity
M. Tinkham, Dover Publ Inc
ISBN: 978-0486435039

Foundations of Applied Superconductivity
T. P. Orlando K. A. Delin, Addison Wesley
ISBN: 978-0201183238
